Jerzy Pogonowski. *Extremal axioms. Logical, mathematical and cognitive aspects*. Wydawnictwo Nauk Społecznych i Humanistycznych UAM, Poznań, 2019, 319 pp. ISBN 978-83-64902-78-9

Publication supported by the National Science Center research grant 2015/17/B/HS1/02232.

- Preface 9
- PART ONE: Logical aspects 13
  - 1. Mathematical theories and their models 15
  - 2. Historical remarks concerning extremal axioms 43
  - 3. The expressive power of logic and limitative theorems 73
  - 4. Categoricity and completeness results in model theory 103
- PART TWO: Mathematical aspects 123
  - 5. The axiom of completeness in geometry, algebra and analysis . . . 125
  - 6. The axiom of induction in arithmetic 163
  - 7. Two types of extremal axioms in set theory 187
- PART THREE: Cognitive aspects 221
  - 8. Mathematical intuition 223
- A final word 267
- Bibliography 271
- Author index 293
- Subject index 301
